GOLD NUGGET

Water Based Heavy Equipment Wash

OVERVIEW

Gold Nugget Heavy Equipment Cleaner is a heavy duty, mid-pH, rapidly biodegradable, premium quality Quick Break detergent designed for cleaning heavy equipment, heavy machinery and earthmoving vehicles. The product can be applied through foaming equipment, pressure washing equipment, automated gantry equipment and manually.

Gold Nugget Heavy Equipment Cleaner meets a comprehensive range of cleaning needs in the transport, manufacturing, and mining industry. Coping with oil and grease as well as heavy soils and drilling mud residues, Gold Nugget is nevertheless formulated to be environmentally friendly.

BENEFITS:

- Quick Break ability - compatible with modern water treatment equipment
- Water based - non flammable
- Biodegradable - environmentally friendly
- Highly concentrated - economical
- Rinses freely - leaves no oily film
- Versatile - can be used on a number of surfaces & through a variety of equipment types*
- Effective in hard or soft water

*When applied through foaming equipment, it produces dense clinging foam, ensuring maximum contact time with soil surfaces.

APPLICATION

The following dilution rates are a guide and may be adjusted to suit local conditions.

Degreasing 1: 10
High Pressure 1: 10
Concrete 1: 10
Floors 1: 20
Windows 1: 100

Caution: Do not mix this product with other detergents or chemicals as quick break action may be impeded.

Gold Nugget Heavy Equipment Cleaner is supplied in 20lt, 200lt and 1000lt containers.
